

MILAN SINGH

+91 8533960192 | devmilansingh81@gmail.com | dev.milan.com | github.com/milan-sh | linkedin.com/in/milan-singh-81ms33

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, SQL, HTML, CSS

Cloud & Infrastructure: AWS (Lambda, EC2, S3, API Gateway, Aurora, CloudFront, CloudWatch, IAM), Docker, CI/CD, GitHub Actions, Linux

Frameworks & Tools: React, React Native (Expo), Node.js, Express.js, Fastify, Redux Toolkit, TanStack Query, Zod, Clerk, WebSockets

Databases: PostgreSQL, MongoDB, Redis, Appwrite

Other: Microservices, System Design, Generative AI, Prompt Engineering, Claude Code

PROFESSIONAL EXPERIENCE

Software Developer | Dash Dynamic | IIT Delhi, India Sept 2025 - Present

- Built a high-performance cross-platform application enabling reliable high-frequency BLE data streaming with real-time updates, auto-reconnection, failover, offline support, and secure authentication
- Designed scalable backend systems with REST APIs, OTP services with rate limiting, MQTT pipelines, and optimized PostgreSQL queries, improving API performance by 60% using Redis caching
- Developed a data-intensive dashboard with high-performance charting, interactive maps, client-side caching, and role-based access control
- Deployed scalable AWS infrastructure, improving system reliability by 85% through fault-tolerant architecture

Frontend Developer | Sudo Yantra | New Delhi, India Nov 2024 - Feb 2025

- Improved platform performance by 80% using code splitting, lazy loading, and asset optimization within an Agile team
- Enhanced accessibility to WCAG AA standards using semantic HTML, ARIA attributes, and keyboard navigation, increasing user reach by 15%
- Optimized image delivery using WebP and responsive images, reducing bandwidth usage by 40% and improving Core Web Vitals

PROJECTS

Happy Dates App | React Native, Express.js, Better Auth, OpenAI, Tanstack, Redis Feb 2026 - Present

- Built a cross-platform app to manage and track birthdays with reminders, notifications, AI-based celebration suggestions, and personalized messages in a clean, intuitive UI

ACHIEVEMENTS

Smart India Hackathon 2022 | First Runner-Up

- Developed a real-time dashboard with sensor integration and data visualization for driver health monitoring to help prevent large vehicle accidents

EDUCATION

Bachelor of Science in Electronic Science | University of Delhi

Jul 2021 - June 2024
